

Question 2

Objective Requirements

Create a counter application using React state.
Display the current count.

Add:

Increment Button
Decrement Button
Reset Button

Initial count should be 0.

Counter Application

Current Count: 0

Increment Decrement Reset

```
App.jsx   counters.jsx X
Assessment > Question2 > counters > src > components > counters.jsx > Counters > decrement
1  import React, { useState } from "react";
2
3  function Counters() {
4    // Initialize the counter with 0
5    const [count, setCount] = useState(0);
6
7    // Increase the count by 1
8    const increment = () => {
9      setCount(count + 1);
10   };
11
12   // Decrease the count by 1
13   const decrement = () => {
14     setCount(count - 1);
15   };
16
17   // Reset the count to 0
18   const reset = () => {
19     setCount(0);
20   };
21
22   return (
23     <div style={{ textAlign: "center", marginTop: "50px" }}>
24       <h1>Counter Application</h1>
25
26       <h2>Current Count: {count}</h2>
27
28       <button onClick={increment}>Increment</button>
29
30       <button onClick={decrement} style={{ marginLeft: "10px" }}>
31         Decrement
32       </button>
33
34       <button onClick={reset} style={{ marginLeft: "10px" }}>
35         Reset
36       </button>
37     </div>
38   );
39 }
40
41 export default Counters;
```

```
App.jsx   X   counters.jsx
Assessment > Question2 > counters > src > App.jsx > default
1  import React from 'react'
2  import Counters from './components/counters'
3
4  function App() {
5    return (
6      <Counters />
7    );
8  }
9
10 export default App;
```
